Report from Working Group 3

ENCePP Plenary Meeting, 11 October 2012

Presented by: Kevin Blake on behalf of Miriam Sturkenboom

An agency of the European Union

Key deliverables

1. Revision of ENCePP website and processes to add a data source to the Resources Database.
2. Guidance to conduct multi-country studies in light of legislative requirements for data protection.
3. Survey of EMA/EC publicly funded researchers in terms of methodologies for data integration/pooling across studies.

Adding a data source

- Terms and Conditions clarified and amended to allow third party to add details.
- On-line questionnaire streamlined to facilitate entries – much fewer mandatory questions.
- ENCePP Secretariat/ENCEPP partners can add details directly.

Data privacy Surveys May 2012

- Member States via PhVWP.
- ENCePP Plenary.
- Very good response – 34 responses.
- WG3 working on compiling information and interpreting the results to form a guidance to studies across Member States.

Data pooling methodologies

- Survey of EMA/EC funded multi-country studies conducted Aug/Sept 2012.
- Common methodologies in practice being identified.
- Basis for further guidance – liaison with WG1 and Drafting Group on Data Integration.
