Collaboration between ENCePP and learned societies / guidance initiatives

K. Arnold Chan, MD, ScD, FISPE

National Taiwan University and NTU Health Data Research Center

ENCEPP Steering Group meeting

November 30, 2022

Potential conflict of interest disclosure

- I represent the International Society for Pharmacoepidemiology (ISPE) to participate in the ENCePP Steering Group
- Currently a faculty at a public university
- Will transition to the private sector (TriNetX, LLC) soon

ISPE pharmacoepi.org

- A professional society with members from
 - Academia
 - Regulatory agencies
 - Medical product companies
 - Service providers (including data sources)
- A neutral platform
 - Annual meeting, mid-year meeting, regional meeting
 - *Pharmacoepidemiology and Drug Safety*
- ISPE-sponsored/endorsed articles

Further links/synergies – my own thoughts

- ENCePP symposium during annual / mid-year meeting
- Real-World Data development
 - Guidance documents
 - Specific data sources
- Training / education programs
- Methodology development
 - ENCePP guide
- Collaboration with other learned societies – ISoP, ISPOR, and others
 - e.g. safety signal refinement
