<https://w3.icf.uab.es/trainingopp/>

Innovative Medicines Initiative (IMI)

EFPIA and the European Commission

Part of the Joint Technologies Initiative of the 7th FP

Objective: to promote biomedical R+D+I, in particular in the field of clinical safety and improvement of new medicines efficacy, knowledge management, education, and research training

2,000 M€ in five years (50% EC, 50% EFPIA in kind), to support collaborative projects of public institutions, SMEs, and pharmaceutical companies

IMI Safety Pillar	4
1. Improve Predictivity of Immunogenicity	4
2. Non-genotoxic Carcinogenesis.....	11
3. Expert Systems for in silico Toxicity Prediction	17
4. Improved Predictivity of non-clinical Safety Evaluation	22
5. Qualification of Translational Safety Biomarkers.....	27
6. Strengthening the Monitoring of Benefit/Risk	34
IMI Efficacy Pillar.....	38
7. Islet Cell Research	38
8. Surrogate Markers for Vascular Endpoints.....	44
9. Pain Research.....	50
10. New Tools for the Development of Novel Therapies in Psychiatric Disorders	57
11. Neurodegenerative Disorders.....	61
12. Understanding Severe Asthma.....	67
13. COPD Patient Reported Outcomes	72
IMI Education & Training Pillar	79
14. European Medicines Research Training Network	79
15. Safety Sciences for Medicines Training Programme.....	82
16. Pharmaceutical Medicine Training Programme.....	86
17. Integrated Medicines Development Programme	91
18. Pharmacovigilance Training Programme	95

Welcome to the PROTECT website!

Pharmacoepidemiological Research on Outcomes of Therapeutics by a European Consortium is a collaborative European project that comprises a programme to address limitations of current methods in the field of pharmacoepidemiology and pharmacovigilance. The European Medicines Agency (EMA) is the coordinator of PROTECT and GSK is the deputy co-ordinator of PROTECT. They manage a multi-national consortium of 31 partners including academics, regulators, SMEs and EFPIA companies.

PROTECT workpackages

Work Package	Work Package title
1	Project management and administration
2	Framework for pharmacoepidemiological studies
3	Methods for signal detection
4	New tools for data collection from consumers
5	Benefit-risk integration and representation
6	Validation studies involving an Extended Audience
7	Training and communication

THE EU2P CONSORTIUM

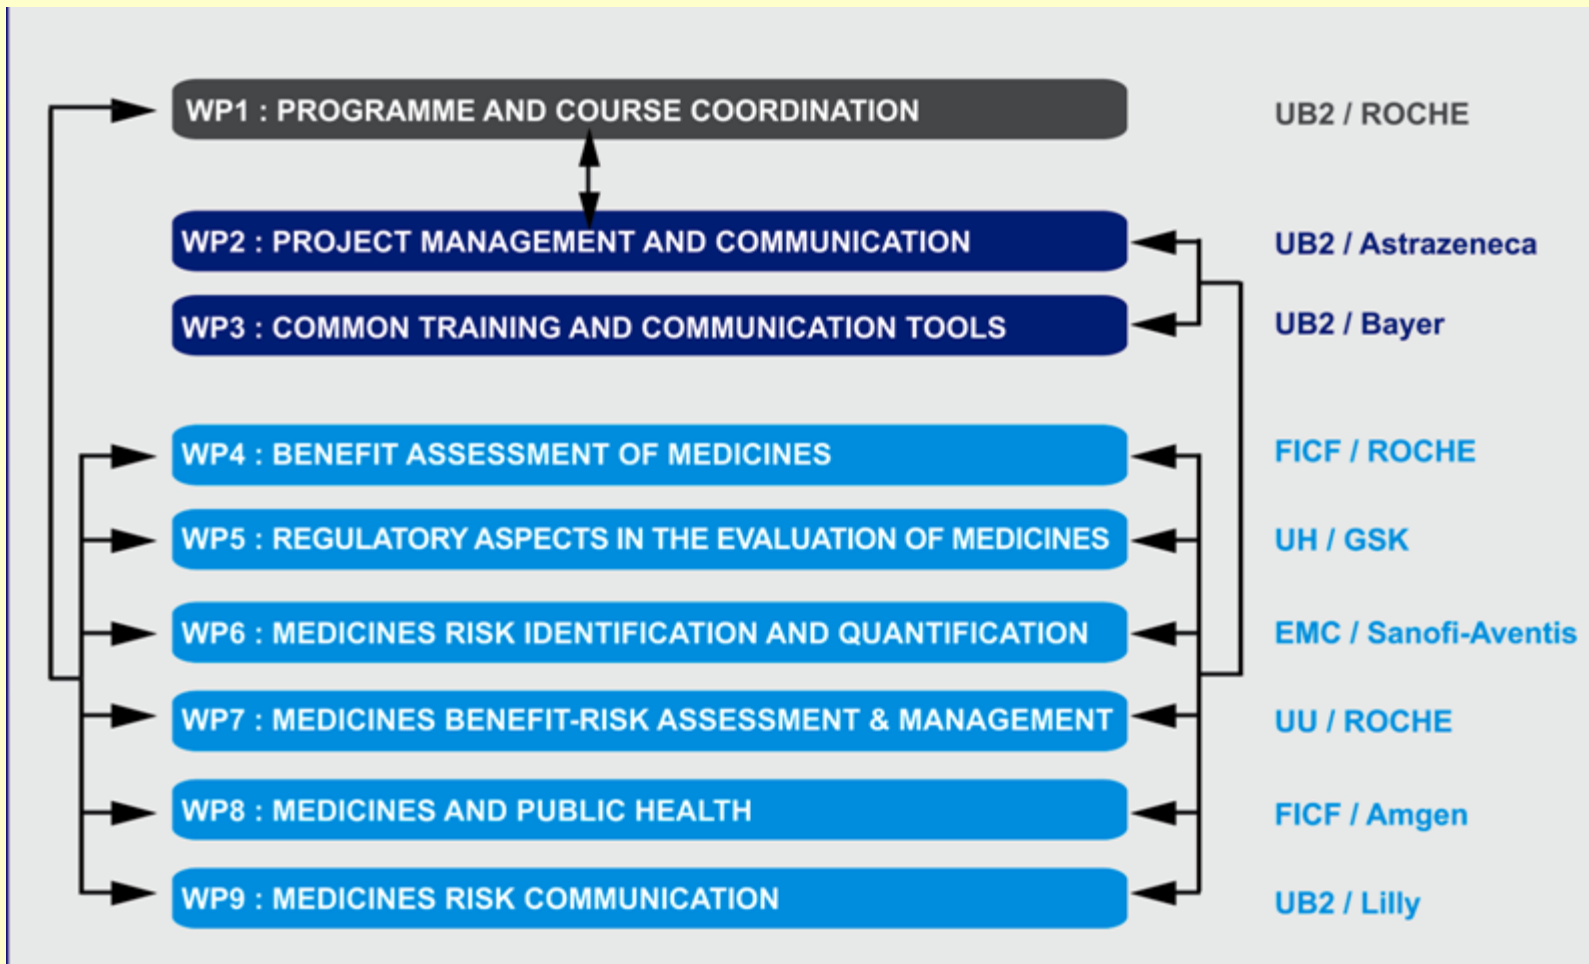

- 7 major universities
- 15 pharmaceutical companies
- EMA
- AFSSAPS

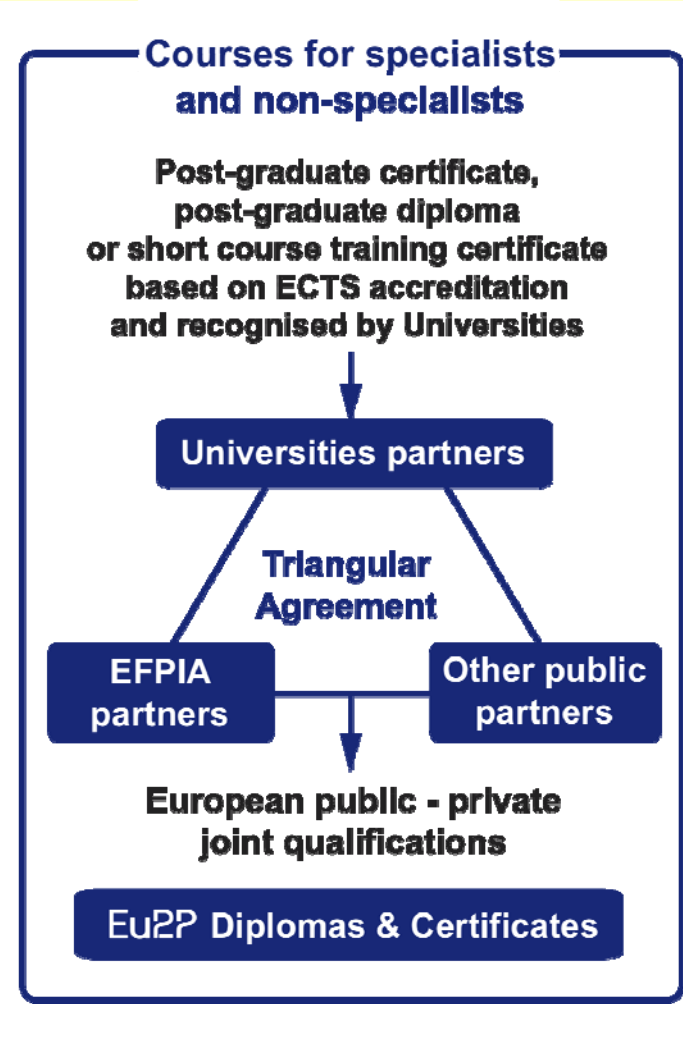

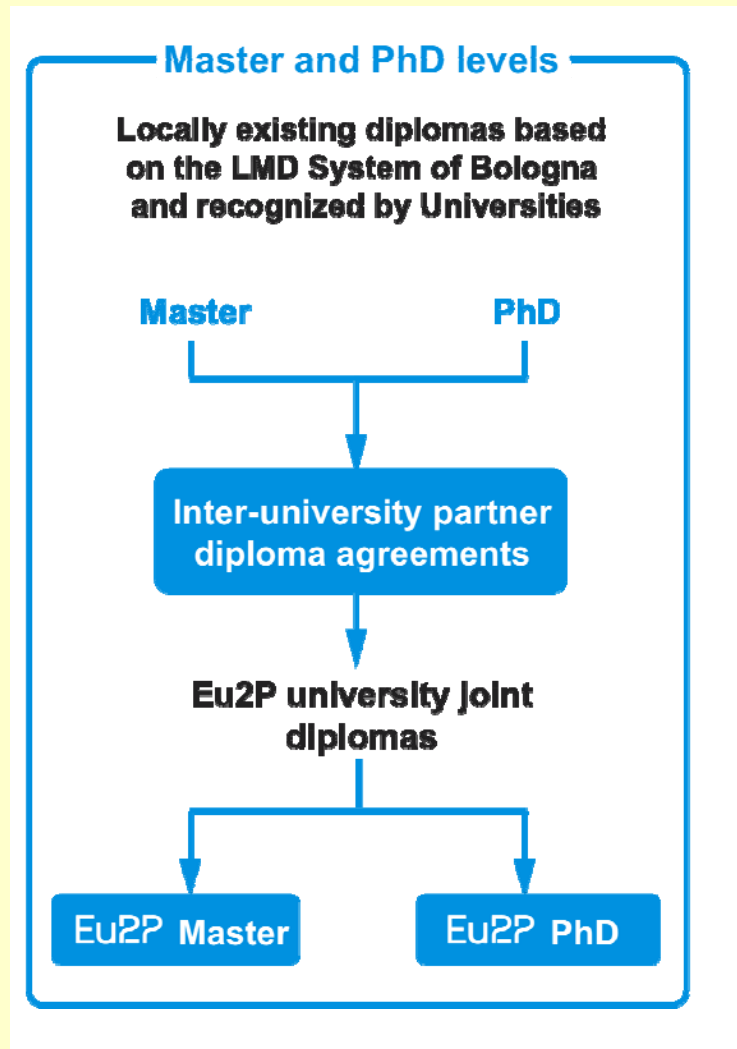

Provide a combination of :

- Short courses with various proficiency levels (introductory, intermediate & advanced)
- Master's degree in Pharmacovigilance & Pharmacoepidemiology

OVERALL STRUCTURE & ORGANISATION

DIPLOMAS AND CERTIFICATES AGREEMENT AND RECOGNITION FOR EU2P

PLANNING AND MILESTONES

1st Phase :

1st Sept 2009 - March 2011

- Establishment of the Eu2P programme
- e-Learning platform deployment
- Diploma Agreements (Masters, PhD, short courses)

2nd Phase:

April 2011 – Aug 2014

- Modular (in 1, 2 or 3 years) and flexible (anytime, anyplace) courses delivery: Masters, PhD and short courses
- Evaluation and Quality control procedures
- Promotion and communication of Eu2P

End of the 5th year

Self-sustaining program

The ideas behind the Platform

- We need collaboration in training
- Exchange of trainees between centres

The ideas behind the Platform

Is there an ongoing research project in your centre which may need or which is ready to accept additional workforce?

Assemble information from as many centres as possible on potential positions which can be offered to trainees in the areas of PhV and PE
